Test Report No. 13.0.32816

(=13.HBD.32816 ZN)

Applicant : Keya Knit Composite Ltd.
Jarun, Konabari
Gazipur - 1346
BANGLADESH

Date of order : 22/10/2013

Reference no. or contact person : Mr Masum Pathan
Tel: +880 9497 779
Email: masum@keya-bd.com

Receipt of order : 28/10/2013

Receipt of material : 28/10/2013
25/11/2013 Retest sample 1NU1

Receipt of further information : 04/11/2013 Payment in advance
02/12/2013 Retest payment
03/12/2013 Valid certificate 08.HBD.61482

Details of order : Certification of textile products with the label "Confidence in textiles – Tested for harmful substances according to Oeko-Tex® Standard 100"

This test report comprises 5 pages

The test results relate only to the test samples submitted. This test report must only be reproduced in full and not in extract form. Use of the test report in advertising or the publication of free interpretations of the test results is only allowed with the express permission of Forschungsinstitut Hohenstein. Remaining test material will usually be destroyed after 3 months. Our terms of business shall apply, www.hohenstein.de/pdf/agb_e.pdf

4. December 2013

The application for certification was submitted using the relevant forms issued for this purpose.

The applicant enclosed the declaration of conformity.

The originals of all necessary documents have been signed with a legally binding signature.

The orderer confirmed that no biological active product is used.

Further the orderer confirmed that no flame retardant product is used.

Copies of Oeko-Tex® certificates (08.HBD.59321, 11.HBD.86621, 08.HBD.63849, 09.HBD.64470, 09.HBD.68398, 12.HBD.11198, KLMO 049352, 08.HBD.61482, ZHNO 034041) for the products in use were enclosed with the application.

All certificates were valid at the date of application for certification.

The application was made for the following article group:

Knitted ready made garments (T-shirt, polo-shirt, tank top, vest, sweatshirt with hood and pyjama, made of 100 % cotton, cotton/elastane, cotton/polyester, white and dyed as well as cotton/viscose in grey melange, pigment and rubber print on cotton and cotton/polyester, including accessories (sewing thread, woven and printed label, polyester button, elastic, zipper, interlining), produced by using materials certified according to Oeko-Tex® Standard 100.

The four product categories specified in Oeko-Tex® Standard 100 are described as follows:

Product-class	Definition
I	Products for babies Products for babies in context with this standard are all articles, basic materials and accessories, which are provided for the production of articles for babies and children up to 36 months with the exception of leather clothing.
II	Products with direct contact to skin Skin contact articles are those which are worn with a large part of their surface in direct contact with the skin (e.g. blouses, shirts, underwear etc.).
III	Products without direct contact to skin No skin contact articles are those which are worn with only a little part of their surface in direct contact with the skin (e.g. Stuffings, linings etc.).
IV	Decoration material Decoration material in context with this standard are all articles including initial products and accessories which are used for decoration such as table clothes, wall coverings, furnishing fabrics and curtains, upholstery fabrics and floor coverings.

According to the information provided by the orderer and to the specified area of use, product class I is applicable.

4. December 2013

The test material named below was submitted for testing.

Serial No.	Description of article or material	Additional information					Material composition
		Quality	Article No.	Colour No.	Design	Colour	
1	interlining					white	n.i.

Serial No.	Description of article or material	Additional information					Material composition
		Quality	Article No.	Colour No.	Design	Colour	
1 NU1	interlining					white	n.i.

If only parts of certain articles were included in the tests, only these parts are named in the list of materials.

After being informed about the results by advanced notice the orderer sent improved samples from the same finishing quality (NU) resp. improved samples from a comparable finishing quality (E).

Test Result/s

Tests were carried out in accordance with Oeko-Tex® Standard 100.

The test results are given in the charts below.

Note: n.d. = not detectable (below quantification limit)

sample	formaldehyde in mg/kg (ppm)			
1 interlining white	n.d.			
limit values acc. to Oeko-Tex® Standard 100	product class I n.d.	product class II 75	product class III 300	product class IV 300

Note:

According to Japanese Law 112 "n.d." corresponds with an absorption unit < 0,05 respectively < 16 ppm.

4. December 2013

sample	extractable heavy metals in mg/kg (ppm)								
	Sb antimony	As arsenic	Pb lead	Cd cadmium	Cr chromium	Co cobalt	Cu copper	Ni nickel	Hg mercury
1 interlining white	< 4	0,47	< 0,05	< 0,05	< 0,1	< 0,1	< 4	< 0,1	< 0,01

limit values acc. to Oeko-Tex® Standard 100			
product class I	0,05	sum 0,05	50
product class II - IV	0,50	sum 0,50	100

4. December 2013

Conclusion

The material for which the certification was applied fulfils the specific requirements for product class I of Oeko-Tex® Standard 100.

It is representative of the article group for which an application for certification was made.

The certification of the following article group is approved:

Knitted ready made garments (T-shirt, polo-shirt, tank top, vest, sweatshirt with hood and pyjama, made of 100 % cotton, cotton/elastane, cotton/polyester, white and dyed as well as cotton/viscose in grey melange, pigment and rubber print on cotton and cotton/polyester, including accessories (sewing thread, woven and printed label, polyester button, elastic, zipper, interlining), produced by using materials certified according to Oeko-Tex® Standard 100.

Each holder of certificate has signed for the quality of his articles on his own responsibility. This is in accordance with the given declaration of conformity. He is committed to ensure this by suitable and sufficient spot checks. This commitment includes the quality of bought materials, too. In the case of delegating parts of this quality assurance to others the certifying body must be fully acquainted (see point 4 "Conformity declaration").

Oeko-Tex® is authorized to carry out spot checks in order to inspect the certified goods. The certificate holder will receive a separate test report with the results of these inspections.

If the spot checks reveal a deviation from the limit values, additional tests will have to be carried out. The relevant costs will be charged to the certificate holder.

The applicant is responsible for checking the validity of the certificates issued to his suppliers.

If the term of validity of these certificates expires within the term of validity of the applicant's certificate, he is obliged to request updated or extended certificates from his suppliers.

Copies of updated certificates from suppliers should be presented as proof and for documentation purposes under the test number of the applicant's certificate.

The actual version of Oeko-Tex® Standard 100 is edition 04/2013. It can be downloaded directly from the Oeko-Tex® Homepage (<http://www.oeko-tex.com>).
